

VI MAGAPOR TECHNICAL MEETING

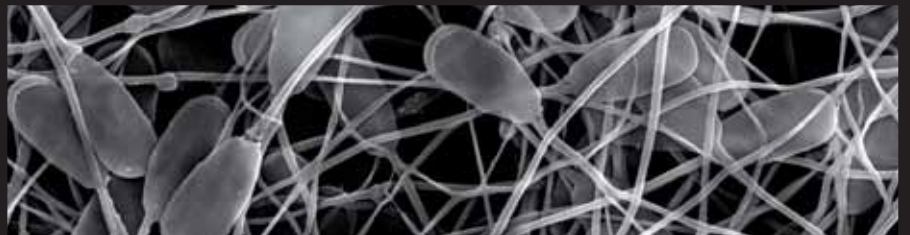

26th May 2011

Saragossa

Hotel Hiberus

*Because many things are changing...
"In the Vanguard of Biotechnology"*

Letter from the Program Management

"In the Vanguard of Biotechnology"

One more year, Magapor organizes its **Veterinary-Technical Meeting**, which we expect to have become a reference for updating knowledge and revising new trends in the scene of swine artificial insemination centers.

The objective of this date is not only to refresh our knowledge, but also to share experiences and livings, strengthening ties with our partners.

Because many things are changing: our Meeting is conceived as a forum of analysis and discussion of the possibilities available to respond efficiently in our area, which is key for the porcine production industry.

During this intense conference day, we will analyze in depth the production and management systems in countries as the USA and Italy and listen to the presentations of some interesting 2010 clinical cases directly from our colleagues.

Concepts as **biosecurity, bacterial contamination, hygiene, semen quality or specific nutrition** constitute the main leads for the conversations to be held next May 26th.

In my name and in that of the whole Magapor staff, I wish you enjoy this productive day, where, apart from exercising companionship, we may acquire new practical ideas for the future.

Juan Luis Úbeda
Technical Manager
Magapor

Six years ago, when we first thought of gathering technicians from Insemination Centers in a date that should be a meeting and training point in the latest trends of the industry, we could never imagine the success it could achieve.

From the opening talk, "Testicular pathology revision in boars", the conference lectures gained quality and interest and soon obtained the support of the regional Aragonese institutions. Our initial meeting of national professionals evolved into a conference of international repercussion with attendants from diverse countries and lecturers of worldwide recognition that shared with us developments in their research lines.

We can thus affirm Magapor is **in the vanguard of biotechnology**: in its research, development and spread, as this Meeting proves. We are doing it for you.

Welcome!

Jesús Mena
General Manager
Magapor

Schedule

VI MAGAPOR TECHNICAL MEETING

"In the Vanguard of Biotechnology"

9:30 h.

OPENING CEREMONY

10:00 - 10:45 h.

SERGI BONET

Morphoanomalies, origin and implications.

10:45 - 11:45 h.

JUAN LUIS ÚBEDA and YAHYA DAHMANI

Ejaculate hygiene. Introduction to the DICOL concept.

11:45 h.

COFFEE BREAK

12:00 - 12:45 h.

DARWIN REICKS

Day to day in American AICs.

12:45 - 13:30 h.

MARCELLO MARCHESI

Boar specific nutrition.

13:30 - 14:15 h.

LORENZO FRAILE

Pharmacological concepts of antibiotic use on semen.

14:15 14:15 h.

LUNCH

15:30 - 16:15 h.

DARWIN REICKS

Biosecurity in insemination centers and seminal doses. A view for the future.

16:15 - 16:30 h.

ISAAC HUERTA

Field experiences.

16:30 - 16:45 h.

RAQUEL AUSEJO

Results from Magapor-2010 Semen Dose Control and Monitoring Plan.

16:45 h.

COFFEE BREAK

17:00 - 17:30 h.

MANUEL TOLEDO

The fight against bacterial contamination in ejaculates/Homogenisation of dose concentration.

17:30 - 17:45 h.

JOSÉ ANTONIO ESTEBAN

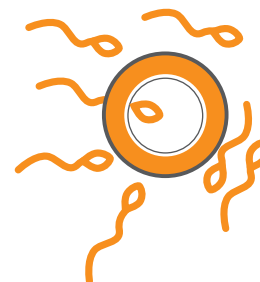

Field experiences.

18:00 h.

CLOSING CEREMONY

21:30 h.

CLOSING DINNER

Opening of the V Magapor Technical Meeting 2010.

From left to right: Jesús Mena, Magapor General Manager; Javier Lambán, President of Regional Diputation of Saragossa; and Juan Luis Úbeda, Magapor Technical Manager.

Participants

After five editions, Magapor Technical Meeting aims to become a reference in the animal reproduction field.

Last edition had a high participation rate, including national technicians and veterinarians, as well as international attendants.

The origin of our participants can be summarized in the following list:

- France
- Greece
- Italy
- Japan
- Mexico
- Portugal
- Romania
- Spain
- Thailand
- The Netherlands
- United Kingdom
- United States

Thai delegation during the V Magapor Technical Meeting.

Speakers

Seminar

"DAY TO DAY IN AMERICAN AICs" / "BIOSECURITY IN INSEMINATION CENTERS AND SEMINAL DOSES. A VIEW FOR THE FUTURE"

SPEAKER: Darwin Reicks

- DVM.
- Associate of the Minnesota Swine Veterinary Center.
- Responsible for boar knowledge and artificial insemination areas.
- Author of several practical articles on swine production and reproduction.

Seminar

"EJACULATE HYGIENE. INTRODUCTION TO THE DICOL CONCEPT"

SPEAKER: Juan Luis Úbeda

- Magapor Technical and R&D Manager.
- Veterinarian specialized in swine with 20 years of experience.
- Associate professor in the Faculty of Veterinary Medicine in Saragossa from 1999.
- Co-manager and professor in the Diagnosis and Reproduction Modules of the Sepropor Master's Degree from its foundation.

Seminar

"THE FIGHT AGAINST BACTERIAL CONTAMINATION IN EJACULATES" / "HOMOGENISATION OF DOSE CONCENTRATION"

SPEAKER: Manuel Toledo

- Graduated in Veterinary Medicine.
- Notable member of Juan Jiménez García's Technical Service.
- Expert in swine production and author of diverse articles, outstanding a series dedicated to productive data interpretation.
- Boar area manager in his company.

Seminar

"PHARMACOLOGICAL CONCEPTS OF ANTIBIOTIC USE ON SEMEN"

SPEAKER: Lorenzo Fraile

- DVM.
- Wide experience as field clinical specialist in swine.
- Researcher in CRESA.
- Pharmacology expert.
- Assistant Professor in the Faculty of Agronomists of Lleida.

"In the Vanguard of Biotechnology"

Seminar

"BOAR SPECIFIC NUTRITION"

SPEAKER: Marcello Marchesi

- Veterinarian.
- Technical Service Manager in the Martini Group.
- Nutrition expert.
- boar nutrition.

Seminar

"MORPHOANOMALIES, ORIGIN AND IMPLICATIONS"

SPEAKER: Sergi Bonet

- Ph. D. Biology.
- Chair of Cell Biology in the University of Girona.
- Member of the Royal Academy of Science and Arts of Barcelona.
- General Director of TechnoSperm Research Centre.
- Numerous papers published in scientific magazines.

Seminar

"FIELD EXPERIENCES"

SPEAKER: José Antonio Esteban

- Technical Manager in Comapor Artificial Insemination Center.
- Experienced in swine reproduction, participated in the implementation and spread of artificial insemination in central Spain.

Seminar

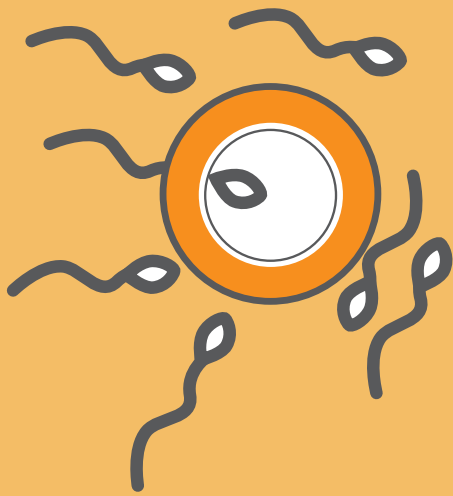

"RESULTS FROM MAGAPOR - 2010: SEMEN DOSE CONTROL AND MONITORING PLAN"

SPEAKER: Raquel Ausejo

- Graduated in Veterinary Medicine.
- Sapropror Master's Degree 2009.
- Member of Magapor Technical Service.

VI MAGAPOR TECHNICAL MEETING

"In the Vanguard
of Biotechnology"

Speakers

Seminar

"FIELD EXPERIENCES"

SPEAKER: Isaac Huerta

- Graduated in Veterinary Medicine.
- Sapropor Master's Degree 2009. Best final Master Project in his year.
- Responsible for Magapor's expansion in the US.

Seminar

"EJACULATE HYGIENE. INTRODUCTION TO THE DICOL CONCEPT"

SPEAKER: Yahya Dahmani

- Ph.D. Biology.
- Expert in Biology and genetic alterations in sperm cells.
- Member of Magapor Technical Service.
- Responsible for the development of research projects in the company.

Audience at 2010 edition.

"In the Vanguard of Biotechnology"

Saragossa, May 2011

The Cathedral Basilica of "Nuestra Señora del Pilar" of Zaragoza. Baroque temple from the 17th-20th centuries.

consider the necessary requirements for it to be successful are
not to be met.

VI MAGAPOR TECHNICAL MEETING

"In the Vanguard of Biotechnology"

International Schedule

Monday, 23rd May

- Arrival and reception of international assistants.
- Accommodation and dinner at Hotel Sekia of Ejea de los Caballeros.

Tuesday, 24th May

- 9:00 - 11:00 h. Technical seminars with the Magapor Technical Department.
- 11:00 - 14:00 h. Training in the Magapor Laboratory.
- 14:00 - 16:00 h. Lunch.
- from 16:00 h. on Tourism around the area.

Wednesday, 25th May

- 9:00 - 11:00 h. Technical seminars with the Magapor Technical Department.
- 11:00 - 14:00 h. Training in the Magapor Laboratory.
- 14:00 - 16:00 h. Lunch.
- 16:00 h. Departure to Zaragoza. Accommodation at Hotel Hiberus. Spare time.

Thursday, 26th May

- VI Magapor Technical Meeting.
- Organised by Magapor Technical Department.

Friday, 27th May

- Departure of international visitors.

Air view of Magapor Facilities.
